

REMARKS:

This is my understanding of approximately what you wanted for and interim reply to [REDACTED] 25X1C8c  
As to the "search" referred to within, you directed that it be undertaken by P&P. I cannot discover that anything has been done as yet.

Isn't it possible that the simplest way to handle this might be to get together representatives of military agencies, plus CIA, plus [REDACTED] or 25X1C8c equivalent in a room in the Pentagon where all hands could determine what is wanted and what might be done. If so, different letter might be written to that effect.
